

Join Our Team!

Annapolis Music Therapy Services is happy to announce that we are looking to add a board certified music therapist to our team!

This part time position will start at 10 hours per week, in the afternoons at our clinic in Annapolis. This position has unlimited potential for growth and will quickly develop into a larger caseload. Tiered hourly pay rates are competitive with other MT-BC job descriptions and range between \$15 to \$50 per hour based on job duties.

If you are in search of full time hours, please also consider checking out [this Job Posting](#) on our sister nonprofit site, www.TheMusicalAutist.org. Though two separate jobs listings, both roles would work in tandem and weekly schedules would be accommodating for both positions.

This position is right for you if:

- You are passionate about working with children and adults with special needs as well a willingness to work with older adults, within a relationship-centered, music-centered framework.
- You are a skilled clinical musician, strong in voice, guitar and piano. Some clients receive adapted piano, voice or guitar lessons.
- You live in, or are willing to live in and travel within the Baltimore/Annapolis corridor of Maryland.
- You enjoy a variety of clientele and enjoy a variety of clinical settings in private homes, schools, clinic, nursing homes and out in the community.
- You are flexible and willing to work afternoon/evening hours and potentially on Saturdays.
- You are dependable, responsible and a team player.
- You have a strong understanding of, or desire to understand, disability rights issues as it relates to autism and you presume competence in people on the autism spectrum.

We are looking for a responsible and dynamic therapist to help grow our team, therefore this might not be the right position for you if you are looking to establish your own private practice, if you are not a good communicator via writing, email and phone, if you are not able to provide transportation between clients or willing to travel throughout your day or if you are not willing to grow as a person or clinician.

Annapolis Music Therapy Services is an established private practice that serves children, adults and older adults with developmental and mental health needs within home, school, community, and nursing home settings throughout the region of central Maryland, as well as in our primary clinic location in Annapolis.

We are seeking to provide an exciting and supportive work experience for a flexible, motivated, energetic, and talented clinician. Some equipment and instruments, clinical supervision and continuing education experiences will be provided.

Qualifications: MT-BC credentials, or immediately qualified to take the CBMT exam. Clinical experience with individuals with special needs is preferred. In addition to excellent musicianship, the successful candidate must possess excellent interpersonal, verbal and written communication skills and a strong desire to work with children and adults in a variety of settings. Reliable transportation and a working cell phone are required.

To apply: Send PDF copies of letter of interest and resume to CJ Shiloh, MT-BC at AnnapolisMusicTherapy@gmail.com. Questions may be addressed to the same email, or you can call 410-697-1812.
